WELCOME TO SPLIT DEAR FRIENDS

About Split

The story of Split is already 17 centuries old, dating to the time the Roman Emperor Diocletian decided to build his Palace right on the peninsula near the great Roman city Salona, where he wanted to spend the last years of his life. During these 1700 years the Palace slowly turned into a city, which to this day lures with its rich tradition, glorious history and beauty of its natural and cultural heritage.

Diocletian Palace and the entire historical core of Split have been on the World Heritage UNESCO list ever since 1979, and not only for the extraordinary preservation of the Palace, but also because the Palace and its city (or the city and its Palace, if you like) continue to live a full life. All historical layers from the old Rome, middle ages till today are still visible and alive in this structure. A walk through the ancient city takes you through time, along the great examples of ancient architecture like Peristyle, the middle aged Romanesque Church and Gothic Palace, Renaissance portals of the noblemen's houses, Baroque facades and modern architecture superbly merged in the rich heritage.

The history of Split

The history of Split is over-flowingly rich and turbulent to fit in just a couple of sentences. Although the Split area was earlier inhabited by the Greek colonies, Emperor Diocletian should be considered its first citizen and founder, starting his lavish villa of around 300 square meters near the great city of Salona in 293 AD, only to retire from the Roman throne within its walls after building it for ten years.

Turbulent centuries that followed turned the villa into a city, conceived by the fugitive inhabitants of Salona who fled from the Avars and Slavs. Many authorities changed hands in the city which, in the years to come, grew beyond the Palace walls, from the Croatian Kings in the 10th century, through the Hungarian and Venetian administration, to the French rulers and the Austro-Hungarian monarchy. Modern age and the 20th century "moved" Split from the kingdom of Yugoslavia, through tragic, yet heroic times of the Italian and German occupation during the Second World War when Split was one of the centres of anti-fascist resistance, to the Socialist Yugoslavia and the present period of the free and independent Croatia, member of the European Union.
